SAGEM

A TRUE PHOTO LAB

NEWS

Fast printing: only 60 seconds per photo !

SAGEM PHOTO EASY® 160 and 260 are incredibly quick. Their newly designed print engine delivers postcard size images at an incredible 60 seconds[3].

Including Red Eye Reduction.

Use the auto enhance key to activate SAGEM CRYSTAL IMAGE™ technology for better, brighter pictures: automatic Red Eye Reduction and built-in photo enhancement, without computer use.
For more information, see you on www.sagem.com/crystal-image.

High quality print worthy of a photo lab

Print real borderless pictures up to 4x6 in (10x15 cm), without leaving home! These vibrant prints are of the same high quality, with the same look and feel, as you'd expect of a traditional photo printed from a professional lab.
Shoot great photos, re-live great moments !

Print true to life colours with the dye sublimation printing method

SAGEM PHOTO EASY® uses dye-sublimation thermal transfer printing technology, sequentially laying down three colours (Yellow, Magenta and Cyan) and then sealing the print with a durable glossy protective coating. Your photos are lastingly resistant and waterproof, to last a lifetime[4]! Superb quality photos with vibrant and natural colours are beautifully recreated with SAGEM PHOTO EASY®'s capability for 16.7 million colours and smooth tonal gradations.

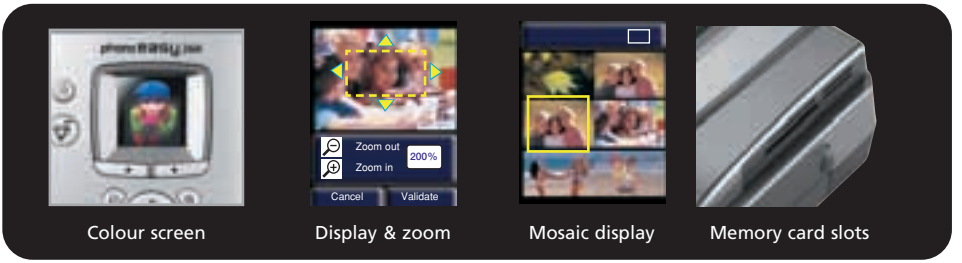
EASY SHARING

Large colour screen & high-precision zoom…

Large 1,8–inch colour LCD with digital 300% zoom: printing photos has never been so easy.
You can now preview, select and edit photos on the 1,8–inch colour screen and print your favourite pictures.
Intuitive control panel: 9 keys for simple one touch operation: rotate, crop, zoom and fix red-eye before print.

Connection, visual display, selection



Colour screen | Display & zoom | Mosaic display | Memory card slots

Powerful multimedia connection:

Free yourself from compatibility restraints.

Print without your computer

Print directly from any PictBridge-enabled digital camera via USB cable.
The built-in 9-in-1[5] photocard slots let you print directly from most popular memory card formats.

Wireless print

Print pictures from your mobile phone camera or PDA using built-in infrared compatibility.
Print from any BLUETOOTH® wireless technology-enabled device using the optional SAGEM Wireless USB adapter.

Print with your computer, either PC or MAC[7]

Connect your PHOTO EASY printer to your computer – to print real pictures from your picture library.
Use the PHOTO EASY printer and its 9-in-1[5] photocard reader to transfer pictures from your memory card to the computer.
